Re: Follow-up to EPA's June 21, 2017 Supplemental Request for Information Pursuant to Section 104(e) of CERCLA for the U.S. Smelter and Lead Refinery Superfund Site, East Chicago, Indiana.

Dear Mr. Johnson,

The U.S. Environmental Protection Agency (EPA) sent the Mining Remedial Recovery Company's (MMRC) a supplemental request for information pursuant to CERCLA Section 104(e) on June 21, 2017. (Attachment 1). EPA requested a response within 15 calendar days of receipt of the request. MRRC received EPA's questions on June 26, 2017, making MRRC's response due by July 6, 2017.

As of today, MRRC's response is 35 days overdue. Failure to respond to the information request can result in up to \$25,000 in penalties for each day of non-compliance. 42 U.S.C. § 9604(e)(5).

If MRRC intends to respond, but needs more time, please provide the United States with the following information by August 21, 2017:

- an explanation for the delay,
- the date by which EPA can expect a complete response, and
- any other information that would be relevant for the United States to evaluate the reasonableness of MRRC's failure to respond thus far.

If MRRC does not intend to comply with EPA's 104(e) please inform me as soon as possible.

EPA's request seeks documents created by the United States Smelting Refining and Mining Company (USSRAM). As explained in the 104(e) request, Congress has authorized EPA to require MRRC to provide information concerning:

- the nature and quantity of lead and arsenic generated, stored, disposed of, or transported to the USS Lead Refinery in East Chicago Indiana;
- the nature or extent of the release of lead and arsenic from the USS Lead Refinery.

See 42 U.S.C. § 9604(e)(2). EPA believes that the documents may have relevant information relating to these topics because USSRAM was USS Lead Refinery's corporate parent from 1920 to 1979. Further, EPA has received additional information from Mueller Industries Inc. (Mueller), MRRC's corporate parent, indicating that the documents are currently in MRRC's custody. Specifically, Mueller has explained that:

- Sharon Steel, Mueller's corporate predecessor, stored the documents at a facility in the vicinity of Wildcat Junction, Utah.
- Sharon Steel transferred the documents to MRRC sometime after December 28, 1990, pursuant to Sharon Steel's bankruptcy and reorganization.
- The documents are likely stored at MRRC's warehouse at 4780 Caterpillar Road, Unit C, Redding California, 96003.
- The documents were re-catalogued in approximately the late 1990's.

In addition to the 104(e) request sent to MRRC, I am enclosing a copy of the similar 104(e) sent to Mueller as well as its response. (Attachment 2 – 104(e) Request Sent to Mueller) (Attachment 3 – Mueller's Response to EPA's 104(e) Request)

To the extent that the Mueller's response correctly stated that the documents were re-catalogued, please respond to following additional questions:

1. Provide the United States with the revised USSRAM Corporate Records Inventory Index.
2. Please provide copies of the requested records as identified in Enclosure E of EPA's June 21, 2017 information request.
3. If the USSRAM Corporate Records Inventory (revised or original) cannot be used to identify and locate the documents EPA requested in its June 21, 2017 request, please explain why.

Thank you for your prompt attention. The United States looks forward to your response no later than August 21, 2017, which should be mailed to:

Leo Chingcuanco
U.S. Environmental Protection Agency, Region 5

Re: Supplemental Request for Information Pursuant to Section 104(e) of CERCLA for the U.S. Smelter and Lead Refinery Superfund Site, East Chicago, Indiana.

Dear Mr. Johnson:

The U.S. Environmental Protection Agency sent the Mining Remedial Recovery Company (MRRC) a general notice letter for the U.S.S. Lead Refinery, Inc. Superfund site on November 2, 2016. We have since corresponded with you regarding issues of liability at the site on several occasion and appreciate MRRC's prior cooperation.

EPA continues to investigate and develop a more complete understanding of USS Lead's operations at the East Chicago facility and the United States Smelting Refining & Mining Co.'s (USSRAM) involvement in those operations. This investigation will help EPA determine if USSRAM shared any CERCLA liability for the USS Lead Site.

In the course of our inquiry, we have become aware of the existence of a document titled "USSRAM Corporate Records Inventory" (Enclosure D). This document is an index that identifies USSRAM corporate records and indicates that these records were located at a Sharon Steel Site in Midvale Utah. The inventory was authored by Charles E. Hughes and Timpanogos Research Associates and is dated September 14, 1991. The inventory describes the general subject matter of the USSRAM corporate records and identifies the location of the records by storage box, large storage cabinet, shelf, or filing cabinet number.

The United States does not know the identity of the current custodian of the USSRAM Corporate Records Inventory referenced by the enclosed index. Based on information provided by another PRP at the USS Lead site, EPA has reason to believe that the creation of the index was commissioned by the Sharon Steel Corporation (Sharon Steel). Sharon Steel, after being restructured through bankruptcy, emerged as Mueller Industries Inc., (Mueller). We are directing this 104(e) request to MRRC because it is a subsidiary of Mueller and may have possession of the records we are seeking or have knowledge of their current whereabouts. We sent a similar request to Mueller and will be sending one to Arava, MRRC's corporate parent.

By this letter, EPA is formally requesting MRRC to provide copies of USSRAM corporate records that are relevant to EPA's continuing investigation. We are including a list of the corporate records EPA is requesting copies of, identified by the subject matter descriptor provided in the enclosed corporate inventory index and the corresponding box, cabinet, shelf, or filing cabinet number. (Enclosure E).

We encourage you to give this matter your immediate attention and request that you provide a complete, accurate and truthful response to the enclosed questions (Enclosures C) within fifteen (15) calendar days of your receipt of this letter. Instructions and Definitions (Enclosures A and B, respectively) as well as a Declaration (Enclosure F) also have been enclosed to assist you with completing your response. Please provide a response to this information request within fifteen (15) calendar days.

Section 104(e)(2) of CERCLA, 42 U.S.C. § 9604(e)(2), gives EPA information gathering authority that allows EPA to require persons to furnish information or documents relating to:

- (a) The identification, nature and quantity of materials which have been or are generated, treated, stored or disposed of at facility or transported to facility;
- (b) The nature or extent of a release or threatened release of a hazardous substance or pollutant or contaminant at or from a facility; and
- (c) Information relating to the ability of a person to pay for or to perform a cleanup.

While EPA seeks your cooperation in this investigation, compliance with this request for information is required by law. Please note that false, fictitious or fraudulent statements or representations may subject you to civil or criminal penalties under federal law.

Some of the information EPA is requesting may be considered by you to be confidential. Please be aware that you may not withhold the information upon that basis. If you wish EPA to treat the information confidentially, you must advise EPA of that fact by following the procedures outlined in Enclosure A, including the requirement for supporting your claim for confidentiality.

If you have information about other parties who may have information that may assist the agency in its investigation of the Sites or may be responsible for the contamination at the Sites, that information should be submitted within the time frame noted above.

This request for information is not subject to the approval requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. § 3501 et seq.

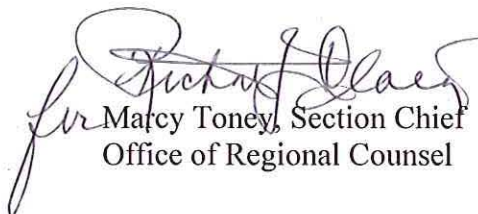

Your response to this request for information should be mailed to:

Steve Kaiser (C-14J)
U.S. Environmental Protection Agency, Region 5
Office of Regional Counsel
77 West Jackson Boulevard
Chicago, Illinois 60604-3590

If you have additional questions about the history of the Site, the nature of the environmental conditions at the Sites or the status of cleanup activities, please visit EPA's website <https://www.epa.gov/uss-lead-superfund-site>. You also may contact Steve Kaiser, Assistant Regional Counsel at (312) 353-3804, or kaiser.steven@epa.gov.

We appreciate and look forward to your prompt response to this Information Request.

Sincerely,

for Marcy Toney, Section Chief
Office of Regional Counsel

Enclosure A
Information Request
USS Lead Site

INSTRUCTIONS

1. Answer Each Question Completely. You must provide a separate answer to each question and subpart set forth in this Information Request. Incomplete, evasive, or ambiguous answers shall constitute failure to respond to this Information Request and may subject you to the penalties set out in the cover letter.
2. Response Format and Copies. Provide the responses to this Information Request and copies of all requested documents either electronically or on paper (hard copy). Your submission, whether electronic or hard copy, must include an index that lists all the responsive documents provided, and that indicates where each document is referenced in the written response, and to which question or questions each document is responsive.

Any documents you determine to be Confidential Business Information ("CBI") must be segregated out and submitted in a separate folder or on a separate compact disc ("CD"). These documents must be clearly marked as "Confidential Business Information."

If providing your response electronically, it must be submitted on a CD in Portable Document Format ("PDF") and comply with the following requirements:

- (a) CBI and personal privacy information ("PII") should be provided on separate media (e.g., a separate CD) and marked as such to ensure information is appropriately handled.
 - (b) All documents originally smaller than 11 by 17 inches can be submitted electronically; any documents originally larger than 11 by 17 inches must be submitted in hard copy.
 - (c) Electronic PDF files must be text-searchable.
 - (d) The document index must clearly identify any single electronic document which has been separated into multiple electronic files (because of size limitation or otherwise) and each component file that comprises the full document.
3. Number Each Answer. Number each answer with the number of the question to which it corresponds.
 4. Provide the Best Information Available. You must provide responses to the best of your ability, even if the information sought was never put down in writing or if the written documents are no longer available. You should seek out responsive information from current and former employees/agents. Submission of cursory responses when other responsive information is available to the Respondent will be considered noncompliance with this Information Request.

5. Identify Information Sources. For each question, identify all persons and documents you relied on for your answer.

6. Confidential Information. You must provide the information requested even though you may contend that it includes confidential information or trade secrets. You may assert a confidentiality claim covering part or all of the information requested, pursuant to 42 U.S.C. §§ 9604(e)(7)(E) and (F), and 40 C.F.R. § 2.203(b). All information claimed to be confidential should be contained on separate sheet(s) and should be clearly identified as "trade secret," "proprietary" or "company confidential". Your confidentiality claim should be supported by the submission of information consistent with 40 C.F.R. Part 2. Information covered by a confidentiality claim will be disclosed by the EPA only to the extent, and only by means of the procedures, provided in 40 C.F.R. §§ 2.201-2.311. If no such claim accompanies the information received by the EPA, it may be made available to the public by the EPA without further notice to you.

You should also provide a redacted version of the same document that removes all information that you claim is CBI and PII from the document. Since all the CBI and PII is removed, this redacted version is not subject to the procedures of 40 C.F.R. Part 2. The EPA may make this redacted version available to the public without further notice to you.

7. Disclosure to the EPA Contractor. Information that you submit in response to this Information Request may be disclosed by the EPA to authorized representatives of the United States, pursuant to 40 C.F.R. § 2.310(h), even if you assert that all or part of it is confidential business information. The EPA may provide this information to its contractors for the purpose of organizing and/or analyzing the information contained in the responses to this Information Request. If you are submitting information that you assert is entitled to treatment as confidential business information, you may comment on this intended disclosure within twenty (20) business days of receiving this Information Request.

8. Personal Privacy Information. Personnel and medical files, and similar files the disclosure of which to the general public may constitute an invasion of privacy, should be segregated from your responses, included on separate sheet(s), and marked as "Personal Privacy Information." You should note, however, that unless prohibited by law, the EPA may disclose this information to the general public without further notice to you.

9. Objections. While you may object to certain questions in this Information Request, you must provide responsive information notwithstanding those objections. To object without providing responsive information may subject you to the penalties set out in the cover letter.

10. Privilege. If you claim that any document responsive to this Information Request is a communication for which you assert that a privilege exists for the entire document, identify (see Definitions) the document and provide the basis for asserting the privilege. For any document for which you assert that a privilege exists for a portion of it, provide the portion of the document for which you are not asserting a privilege, identify the portion of the document for which you are asserting the privilege, and provide the basis for such an assertion. Please note that regardless of the assertion of any

privilege, any facts contained in the document that are responsive to the Information Request must be disclosed in your response.

11. Declaration. You must complete the enclosed declaration, in hard copy with an original signature, certifying the accuracy of all statements in your response.

Enclosure B
Information Request
USS Lead Site

DEFINITIONS

1. The terms "agreement" and "arrangement" means every separate contract, transaction, or invoice, between two or more persons, whether written or oral.
2. The terms "and" and "or" shall be construed either disjunctively or conjunctively, as necessary, to bring within the scope of this request any information which might otherwise be construed to be outside its scope.
3. The terms "document" and "documents" mean any method of recording, storing or transmitting information. "Document" includes, but is not limited to:
 - (a) writings of any kind, including, but not limited to, any of the following:
 - i. letters, memoranda, fax transmittals;
 - ii. meeting minutes, telephone records, notebooks;
 - iii. agreements and contracts;
 - iv. reports to shareholders, management, or government agencies;
 - v. transportation manifests;
 - vi. copies of any document;
 - (b) any film, photograph, or sound recording on any type of device;
 - (c) any blueprints or drawings; and
 - (d) attachments to, or enclosures with, any document.
4. The term "facility" shall have the same definition as that contained in Section 101(9) of CERCLA, and includes (a) any building, structure, installation, equipment, pipe or pipeline (including any pipe into a sewer or publicly owned treatment works), well, pit, pond, lagoon, impoundment, ditch, landfill, storage container, motor vehicle, rolling stock, or aircraft, or (b) any site or area where a hazardous substance has been deposited, stored, disposed of, or placed, or otherwise come to be located; but does not include any consumer product in consumer use or any vessel.
5. The term "identify" means, with respect to a natural person, to set forth: (a) the person's full name; (b) present or last known business and home addresses and telephone numbers; and (c) present or last known employer (include full name and address) with job title, position or business.
6. The term "identify" means, with respect to a corporation, partnership, business trust or other entity, to set forth: (a) its full name; (b) complete street address; (c) legal form (e.g., corporation,

partnership); (d) the state under whose laws the entity was organized; and (e) a brief description of its business.

7. The term "identify" means, with respect to a document, to provide: (a) its customary business description (e.g., letter, invoice); (b) its date; (c) its number if any (e.g., invoice or purchase order number); (d) the identity of the author, addressee, and/or recipient; and (e) a summary of the substance or the subject matter. Alternatively, Respondent may provide a complete copy of the document.

8. The term "person" shall have the same definition as that contained in Section 101(21) of CERCLA, and includes an individual, firm corporation, association, partnership, consortium, joint venture, U.S. government, State, municipality, commission, political subdivision of a State or any interstate body.

9. The term "property" means any interest in real or personal property whatsoever, including fee interests, leases, licenses, rental and mineral rights.

10. The term "you" or "Respondent" means Mining Remedial Recovery Company.

Enclosure C
Information Request
USS Lead Site

REQUESTS

1. Please state whether MRRC is aware of the existence of the USSRAM Corporate Records Inventory Index included as Enclosure D.
2. Please identify who commissioned the creation of the Corporate Records Inventory Index.
3. Please state whether MRRC is in possession of the USSRAM Corporate Records Inventory identified by the enclosed index. If MRRC possesses the USSRAM Corporate Records Inventory, please explain how, when, and why it came into MRRC's possession. If MRRC is not in possession of the USSRAM Corporate Records Inventory, please identify who is in possession of the inventory. Further, please explain how, when, and why it was transferred into the possession of that entity. Finally, if MRRC is not in possession of the USSRAM Corporate Records Inventory please provide the contact information of entity currently in possession of the inventory, including the name of the entity's agent, and the agent's mailing address, phone number, and email address.
4. If MRRC is in possession of the USSRAM Corporate Records Inventory please provide copies of the records identified in Enclosure E.
5. Identify all persons consulted in the preparation of the answers to this request for information.

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

Christopher J. Miritello
Vice President, General Counsel
Mueller Industries, Inc.
8285 Tournament Drive, Suite 150
Memphis, TN 38125

REPLY TO THE ATTENTION OF:

JUN 13 2007

Re: Supplemental Request for Information Pursuant to Section 104(e) of CERCLA for the U.S. Smelter and Lead Refinery Superfund Site, East Chicago, Indiana.

Dear Mr. Miritello:

The U.S. Environmental Protection Agency and Mueller Industries, Inc. (Mueller) have been corresponding with one another on issues arising out of the operations at the former USS Lead facility located at 5300 Kennedy Avenue, East Chicago, Indiana, since at least 2006. Previous correspondence has included EPA's formal requests for information in letters dated: July 11, 2006 and June 20, 2007. We appreciate Mueller's prior responsiveness.

EPA continues to develop a more complete understanding of USS Lead's operations at the East Chicago facility and the United States Smelting Refining & Mining Co.'s (USSRAM) involvement in those operations. This information will help EPA determine if USSRAM shared any CERCLA liability for the USS Lead Site.

In the course of our investigation, we have become aware of the existence of a document titled "USSRAM Corporate Records Inventory" (Enclosure D). This document is an index that identifies USSRAM corporate records and indicates that these records were located at a Sharon Steel Site in Midvale Utah. The inventory was authored by Charles E. Hughes and Timpanogos Research Associates and is dated September 14, 1991. The inventory describes the general subject matter of the USSRAM corporate records and identifies the location of the records by storage box, large storage cabinet, shelf, or filing cabinet number.

Based on information provided by another potentially responsible party at the USS Lead site, EPA has reason to believe that the creation of the index was commissioned by the Sharon Steel Corporation (Sharon Steel). Furthermore, Mueller in its past correspondence with EPA and the Department of Justice has explained that it is the successor to Sharon Steel. Accordingly, EPA is directing this request for information to Mueller.

By this letter, EPA is formally requesting Mueller to provide copies of USSRAM corporate records that are relevant to EPA's continuing investigation. We are including a list of the corporate records EPA is requesting copies of, identified by the subject matter descriptor provided in the enclosed corporate inventory index and the corresponding box, cabinet, shelf, or filing cabinet number (Enclosure E).

We encourage you to give this matter your immediate attention and request that you provide a complete, accurate and truthful response to the enclosed questions (Enclosures C) within fifteen (15) calendar days of your receipt of this letter. Instructions and Definitions (Enclosures A and B, respectively) as well as a Declaration (Enclosure F) also have been enclosed to assist you with completing your response. Please provide a response to this information request within 45 days.

Section 104(e)(2) of CERCLA, 42 U.S.C. § 9604(e)(2), gives EPA information gathering authority that allows EPA to require persons to furnish information or documents relating to:

- (a) The identification, nature and quantity of materials which have been or are generated, treated, stored or disposed of at facility or transported to facility;
- (b) The nature or extent of a release or threatened release of a hazardous substance or pollutant or contaminant at or from a facility; and
- (c) Information relating to the ability of a person to pay for or to perform a cleanup.

While EPA seeks your cooperation in this investigation, compliance with this request for information is required by law. Please note that false, fictitious or fraudulent statements or representations may subject you to civil or criminal penalties under federal law.

Some of the information EPA is requesting may be considered by you to be confidential. Please be aware that you may not withhold the information upon that basis. If you wish EPA to treat the information confidentially, you must advise EPA of that fact by following the procedures outlined in Enclosure A, including the requirement for supporting your claim for confidentiality.

If you have information about other parties who may have information that may assist the agency in its investigation of the Sites or may be responsible for the contamination at the Sites, that information should be submitted within the time frame noted above.

This request for information is not subject to the approval requirements of the Paperwork Reduction Act of 1995, 44 U.S.C. § 3501 et seq.

Your response to this request for information should be mailed to:

Steve Kaiser (C-14J)
U.S. Environmental Protection Agency, Region 5
Office of Regional Counsel
77 West Jackson Boulevard
Chicago, Illinois 60604-3590

If you have additional questions about the history of the Site, the nature of the environmental conditions at the Sites or the status of cleanup activities, please visit EPA's website <https://www.epa.gov/uss-lead-superfund-site>. You also may contact Steve Kaiser, Assistant Regional Counsel at (312) 353-3804, or kaiser.steven@epa.gov.

We appreciate and look forward to your prompt response to this Information Request.

Sincerely,

for Marcy Toney, Section Chief
Office of Regional Counsel

Enclosure A
Information Request
USS Lead Site

INSTRUCTIONS

1. Answer Each Question Completely. You must provide a separate answer to each question and subpart set forth in this Information Request. Incomplete, evasive, or ambiguous answers shall constitute failure to respond to this Information Request and may subject you to the penalties set out in the cover letter.
2. Response Format and Copies. Provide the responses to this Information Request and copies of all requested documents either electronically or on paper (hard copy). Your submission, whether electronic or hard copy, must include an index that lists all the responsive documents provided, and that indicates where each document is referenced in the written response, and to which question or questions each document is responsive.

Any documents you determine to be Confidential Business Information ("CBI") must be segregated out and submitted in a separate folder or on a separate compact disc ("CD"). These documents must be clearly marked as "Confidential Business Information."

If providing your response electronically, it must be submitted on a CD in Portable Document Format ("PDF") and comply with the following requirements:

- (a) CBI and personal privacy information ("PII") should be provided on separate media (e.g., a separate CD) and marked as such to ensure information is appropriately handled.
 - (b) All documents originally smaller than 11 by 17 inches can be submitted electronically; any documents originally larger than 11 by 17 inches must be submitted in hard copy.
 - (c) Electronic PDF files must be text-searchable.
 - (d) The document index must clearly identify any single electronic document which has been separated into multiple electronic files (because of size limitation or otherwise) and each component file that comprises the full document.
3. Number Each Answer. Number each answer with the number of the question to which it corresponds.
 4. Provide the Best Information Available. You must provide responses to the best of your ability, even if the information sought was never put down in writing or if the written documents are no longer available. You should seek out responsive information from current and former employees/agents. Submission of cursory responses when other responsive information is available to the Respondent will be considered noncompliance with this Information Request.

5. Identify Information Sources. For each question, identify all persons and documents you relied on for your answer.

6. Confidential Information. You must provide the information requested even though you may contend that it includes confidential information or trade secrets. You may assert a confidentiality claim covering part or all of the information requested, pursuant to 42 U.S.C. §§ 9604(e)(7)(E) and (F), and 40 C.F.R. § 2.203(b). All information claimed to be confidential should be contained on separate sheet(s) and should be clearly identified as “trade secret,” “proprietary” or “company confidential”. Your confidentiality claim should be supported by the submission of information consistent with 40 C.F.R. Part 2. Information covered by a confidentiality claim will be disclosed by the EPA only to the extent, and only by means of the procedures, provided in 40 C.F.R. §§ 2.201-2.311. If no such claim accompanies the information received by the EPA, it may be made available to the public by the EPA without further notice to you.

You should also provide a redacted version of the same document that removes all information that you claim is CBI and PII from the document. Since all the CBI and PII is removed, this redacted version is not subject to the procedures of 40 C.F.R. Part 2. The EPA may make this redacted version available to the public without further notice to you.

7. Disclosure to the EPA Contractor. Information that you submit in response to this Information Request may be disclosed by the EPA to authorized representatives of the United States, pursuant to 40 C.F.R. § 2.310(h), even if you assert that all or part of it is confidential business information. The EPA may provide this information to its contractors for the purpose of organizing and/or analyzing the information contained in the responses to this Information Request. If you are submitting information that you assert is entitled to treatment as confidential business information, you may comment on this intended disclosure within twenty (20) business days of receiving this Information Request.

8. Personal Privacy Information. Personnel and medical files, and similar files the disclosure of which to the general public may constitute an invasion of privacy, should be segregated from your responses, included on separate sheet(s), and marked as “Personal Privacy Information.” You should note, however, that unless prohibited by law, the EPA may disclose this information to the general public without further notice to you.

9. Objections. While you may object to certain questions in this Information Request, you must provide responsive information notwithstanding those objections. To object without providing responsive information may subject you to the penalties set out in the cover letter.

10. Privilege. If you claim that any document responsive to this Information Request is a communication for which you assert that a privilege exists for the entire document, identify (see Definitions) the document and provide the basis for asserting the privilege. For any document for which you assert that a privilege exists for a portion of it, provide the portion of the document for which you are not asserting a privilege, identify the portion of the document for which you are asserting the privilege, and provide the basis for such an assertion. Please note that regardless of the assertion of any

privilege, any facts contained in the document that are responsive to the Information Request must be disclosed in your response.

11. Declaration. You must complete the enclosed declaration, in hard copy with an original signature, certifying the accuracy of all statements in your response.

Enclosure B
Information Request
USS Lead Site

DEFINITIONS

1. The terms "agreement" and "arrangement" means every separate contract, transaction, or invoice, between two or more persons, whether written or oral.
2. The terms "and" and "or" shall be construed either disjunctively or conjunctively, as necessary, to bring within the scope of this request any information which might otherwise be construed to be outside its scope.
3. The terms "document" and "documents" mean any method of recording, storing or transmitting information. "Document" includes, but is not limited to:
 - (a) writings of any kind, including, but not limited to, any of the following:
 - i. letters, memoranda, fax transmittals;
 - ii. meeting minutes, telephone records, notebooks;
 - iii. agreements and contracts;
 - iv. reports to shareholders, management, or government agencies;
 - v. transportation manifests;
 - vi. copies of any document;
 - (b) any film, photograph, or sound recording on any type of device;
 - (c) any blueprints or drawings; and
 - (d) attachments to, or enclosures with, any document.
4. The term "facility" shall have the same definition as that contained in Section 101(9) of CERCLA, and includes (a) any building, structure, installation, equipment, pipe or pipeline (including any pipe into a sewer or publicly owned treatment works), well, pit, pond, lagoon, impoundment, ditch, landfill, storage container, motor vehicle, rolling stock, or aircraft, or (b) any site or area where a hazardous substance has been deposited, stored, disposed of, or placed, or otherwise come to be located; but does not include any consumer product in consumer use or any vessel.
5. The term "identify" means, with respect to a natural person, to set forth: (a) the person's full name; (b) present or last known business and home addresses and telephone numbers; and (c) present or last known employer (include full name and address) with job title, position or business.
6. The term "identify" means, with respect to a corporation, partnership, business trust or other entity, to set forth: (a) its full name; (b) complete street address; (c) legal form (e.g., corporation,

partnership); (d) the state under whose laws the entity was organized; and (e) a brief description of its business.

7. The term "identify" means, with respect to a document, to provide: (a) its customary business description (e.g., letter, invoice); (b) its date; (c) its number if any (e.g., invoice or purchase order number); (d) the identity of the author, addressee, and/or recipient; and (e) a summary of the substance or the subject matter. Alternatively, Respondent may provide a complete copy of the document.

8. The term "person" shall have the same definition as that contained in Section 101(21) of CERCLA, and includes an individual, firm corporation, association, partnership, consortium, joint venture, U.S. government, State, municipality, commission, political subdivision of a State or any interstate body.

9. The term "property" means any interest in real or personal property whatsoever, including fee interests, leases, licenses, rental and mineral rights.

10. The term "you" or "Respondent" means Mueller Industries, Inc.

REQUESTS

1. Please state whether Mueller is aware of the existence of the USSRAM Corporate Records Inventory Index included as Enclosure D.
2. Please identify who commissioned the creation of the Corporate Records Inventory Index.
3. Please state whether Mueller is in possession of the USSRAM Corporate Records Inventory identified by the enclosed index. If Mueller is not in possession of the USSRAM Corporate Records Inventory, please identify who is in possession of the inventory. Further, please explain how, when, and why it was transferred from Mueller, or Mueller's predecessor Sharon Steel, to the new entity. Finally, if the USSRAM Corporate Records Inventory has been transferred to a new entity, please provide the contact information, including the name of the entity's agent, and the agent's mailing address, phone number, and email address.
4. If Mueller is in possession of the USSRAM Corporate Records Inventory please provide copies of the records identified in Enclosure E
5. Identify all persons consulted in the preparation of the answers to this request for information.

VIA FEDERAL EXPRESS & EMAIL

Mr. Steve Kaiser (C-14J)
U.S. Environmental Protection Agency, Region 5
Office of Regional Counsel
77 West Jackson Boulevard
Chicago, Illinois 60604-3590
Email: kaiser.steven@epa.gov

Dear Mr. Kaiser:

I write on behalf of Mueller Industries, Inc. ("Mueller"), and in response to the "Supplemental Request for Information Pursuant to Section 104(e) of CERCLA for the U.S. Smelter and Lead Refinery Superfund Site, East Chicago, Indiana" dated June 13, 2017 (the "Supplemental 104(e) Request"). Referenced in and enclosed (in CD form as Enclosure D) with the Supplemental 104(e) Request is a document titled "USSRAM Corporate Records Inventory" (the "Index").

Preliminary Statement

The Supplemental 104(e) Request is a follow-up to requests for information issued by EPA in July 2006 and June 2007. Mueller hereby incorporates by reference its responses to those requests, including without limitation the objections raised therein, which Mueller considers to be continuing and applicable to this Request as well.

Mueller also objects to the Supplemental 104(e) Request to the extent that the Request seeks information that belongs to separate legal entities, including Arava Natural Resources Company, Inc. ("Arava"), Mining Remedial Recovery Company ("MRRC"), and USS Lead Refinery, Inc. ("USS Lead"). Mueller understands that separate information requests have been directed to those entities.

Mueller also objects to the Supplemental 104(e) Request on the grounds that the Request is overly broad and seeks information that is unduly burdensome to retrieve and not reasonably calculated to advance the information-gathering goals of Section 104(e) of CERCLA.

Subject to and without waiving the foregoing objections and any other objections Mueller may have to the Supplemental 104(e) Request, Mueller has undertaken a diligent inquiry into the questions contained in the Supplemental 104(e) Request.

Responses

Based on information provided to Mueller by representatives of Arava and MRRC, Mueller provides the following responses to the questions presented in the Supplemental 104(e) Request, subject to and without waiving the objections set forth in its Preliminary Statement:

1. **Request:** Please state whether Mueller is aware of the existence of the USSRAM Corporate Records Inventory Index included as Enclosure D.

Response: Although Mueller has no direct knowledge or awareness of the existence of the Index (apart from its inclusion in the Supplemental 104(e) Request), it understands that Mr. Scott Miller of Arava has previously seen the Index document. Mr. Miller suspected that the last time he saw the Index document was more than 10 years ago.

2. **Request:** Please identify who commissioned the creation of the Corporate Records Inventory Index.

Response: Mueller is unable to identify with certainty who commissioned the creation of the Index. Upon information and belief, the creation of the Index may have been commissioned by Mr. Gary Barker, the former President of Arava, who is deceased.

3. **Request:** Please state whether Mueller is in possession of the USSRAM Corporate Records Inventory identified by the enclosed index. If Mueller is not in possession of the USSRAM Corporate Records Inventory, please identify who is in possession of the inventory. Further, please explain how, when, and why it was transferred from Mueller, or Mueller's predecessor Sharon Steel, to the new entity. Finally, if the USSRAM Corporate Records Inventory has been transferred to a new entity, please provide the contact information, including the name of the entity's agent, and the agent's mailing address, phone number, and email address.

Response: Mueller is not in possession of the records referenced in the Index, but understands that they — either in their entirety or in large part — are likely located and maintained at the warehouse leased by MRRC at 4780 Caterpillar Road, Unit C, Redding, California 96003. MRRC may be contacted through its Vice President, Norman S. Johnson, 780

Caterpillar Road, Unit C, Redding, California 96003, (530) 242-8757, email: njohnson@mrrc.att.net.

Based on information and belief, Mueller understands that at one point in time, the records referred to in the Index were stored by its predecessor, Sharon Steel Corporation (“Sharon Steel”), at a facility in Midvale, Utah. In connection with the Bankruptcy Court-approved reorganization of Sharon Steel, the Midvale property — along with the records contained therein — was transferred to MRRC, pursuant to a December 28, 1990 capital contribution agreement (provided to Annette Lang of DOJ as Exhibit 8 to Covington’s January 25, 2017 letter).

Based on consultations with Mr. Miller, Mueller understands that the documents referred to in the Index were re-catalogued in approximately the late 1990s, when the documents were stored in the vicinity of Wildcat Junction, Utah. Accordingly, the organization and box numbering of the documents as reflected in the Index likely does not correspond to the records as they are currently organized in Redding, California.

4. **Request:** If Mueller is in possession of the USSRAM Corporate Records Inventory please provide copies of the records identified in Enclosure E.

Response: As noted above, Mueller is not in possession of the records referenced in the Index. Mueller understands that MRRC will undertake a diligent response to the separate 104(e) request for the records that has been issued to MRRC.

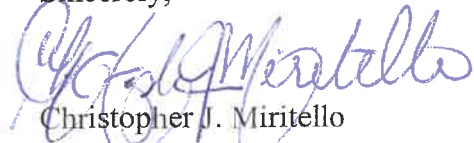

5. **Request:** Identify all persons consulted in the preparation of the answers to this request for information.

Response: The following individuals were consulted in the preparation of the answers to this request for information:

- Mr. Scott Miller – Arava – may be contacted through Arava’s counsel, E. Donald Elliott, Covington & Burling LLP
- Mr. Michael Baum – President, MRRC – 780 Caterpillar Road, Unit C, Redding, California 96003, (530) 242-8757
- Mr. Norman S. Johnson – Vice President, MRRC - 780 Caterpillar Road, Unit C, Redding, California 96003, (530) 242-8757
- Mr. William Hensley – former General Counsel of Mueller Industries, Inc. (1991-2000, 2003-2005) – may be contacted through me

- Mr. Gary C. Wilkerson – former General Counsel of Mueller Industries, Inc. (2005-2016) – may be contacted through me

Sincerely,

Christopher J. Miritello
Vice President, General Counsel and Secretary

cc: E. Donald Elliott, Esq. (via email only)
Thomas Brugato, Esq. (via email only)

Enclosure F
Information Request
USS Lead Site

DECLARATION

I declare under penalty of perjury that I am authorized to respond on behalf of the Respondent and that the foregoing is complete, true, and correct.

Executed on June 29, 2017

Signature

Christopher J. Miritello
